anywhere at any time."

Customer vote

With **PathoZoom® Digital Lab** physicians can report cases from anywhere and at any time – with tablet, laptop, smartphone, PC, or Mac, in the home office, engaged in-house or externally, full-time or part-time.

> Maximum data security

All image data are separated from the patient data; no third party access is possible. PathoZoom® Digital Lab integrates with your current laboratory information system (LIS) and works with any microscope scanner and bar-code printer.
